

Song 1 The Magic of the Dance

Spoken: Let the rhythm of the music come alive,
Feel the beat and let your feet dictate,
Lose yourself in the magic of the art,
And enter into the spirit of the dance.

Verse 1 Feel the power flooding through your veins,
Hold on tight while we loose the reigns,
Muscles tense ready for the rave,
Dance yourself into an early grave,
Get movin', start groovin',
Let your body come alive -live -live -live.

Verse 2 Get livin' and move to the music ,
Pay the band and get on with the groovin',
Let's stir up this town with our singin'
And rockin' and rollin',
So strum your crazy blues.

Get livin' and move to the music ,
Pay the band and get on with the groovin',
Let's stir up this town with our singin'
And rockin' and rollin',
So strum your crazy blues.

Verse 3 Feel the power flooding through your veins.
Hold on tight while we loose the reigns.
Muscles tense ready for the rave.
Dance yourself into an early grave.
Get movin', start groovin'.
Let your body come alive -live -live -live.

Livin' in a world of love and romance.

Nothin' in this world can make you feel this way.

Nothing can take away these
Precious moments, this is for real.

(Boys) She's the only one can make him feel this way.

Song 5 Who Put the Fizz?

Hey Mister Radiator, coolest guy in town
For you made my baby fall in love with me.
Who put the fizz in Ravinelli's brew?
'Cos they sure as hell did put the fizz in me!

Who put the zing in the zing a ling a ling?
Who put the fizz in the fizzy whizzy pop pop?
There's sure a sting in the ding a ding a dong,
Ding dong a fizzy whizzy wham bam pop pop.

Hey, buenas noches, señoritas,
Hey, buenas noches, mis amigos.

Who put the F in effervescence?
Who put the ferm in fermentation?
There's such a boom in the boom sha wah sha wah,
And it sure as hell did light my fuse!

Hey, buenas noches, señoritas,
Hey, buenas noches, mis amigos.

Drifting, floating high into orbit,
Circumambulent turbination and gyrostatics.

Spinning, plummet into the vortex.
Retrogressing and bifocation and dislocation.

Who put the zing in the zing a ling a ling?
Who put the fizz in the fizzy whizzy pop pop?
There's sure a sting in the ding a ding a dong,
Ding dong a fizzy whizzy wham bam pop pop.

Hey, buenas noches, señoritas, Hey, buenas noches, mis amigos.

Who put the F in effervescence?
Who put the ferm in fermentation?
There's such a boom in the boom sha wah sha wah,
And it sure as hell did light my fuse!

Hey, buenas noches, señoritas, Hey, buenas noches, mis amigos.
Buenas noches, mis amigos, (x2) Buenas noches, señoritas.

Song 6 Surfin' Off the Strand

We want to find a new place where we all can meet,
It must be near to the parlour and close to our street.
We need a dive.(Westside, eastside, here or there)
We need a shangri-la,
We need a hive.(Side-street, back-street, here or where)
So come on look alive.

(Go surfin' off the strand. x4 Surfin' off the strand)

Why don't we cruise the front and explore the strip,
We can pull those chicks and settle for a dip.
We need a board.
(Rough side, smooth side, surfin' around)
We need a twistin' wave.
We need a tide,
(twistin', turnin', dippin' and dive)
So come on look alive.(Come on baby, yea!)

Let's all go surfin' off the south coast strand,
(Doo be doo be doo be doo wah)
We'll find those girls and all go hand in hand.
(Doo be doo be doo be doo wah)
We'll cruise right by as, they lie on the sand,
(Doo be doo be doo be doo wah)
We'll be the cool boys, back on dry land.

(Inside, outside, over there) Inside, outside, over there.
Surfin' off the south coast, surfin', surfin' - off the strand.

Song 7 Love Me For This Evening

- Danny I can see for you and me
Our paths were fated to cross this way, so
Love me for this evening,
Spare me these last few hours...
- Sam I will always treasure moments with you,
But could I love you?
Let's not change the world,
Just stay the way we were.
- Danny Let me see if I can be
Your tower of strength in times of need, so
Love me for this evening
And put your trust in me.
- Sam Friendship never falters, why can't you see
The force we feel here
binds greater than love.
Why can't we just be friends?
- Danny Don't you see how you and me
Could light a flame that would never fade, so
Love me for this evening
Two souls forever one....
- Sam Fate may take a twist and drive us apart.
Maybe this evening,
This could be the night
Two hearts are joined as one.

Song 8 Walking On Air

Sam I feel your strong arms around me,
I sense your presence is near.
My world is melting into your world.
Life is contentment when you are here.

Danny I see your shape in the shadows,
I hear your voice in the night,
Your laughter rings in every corner,
I dream your face in ev'ry dream.

Chorus I'll be walking on air and
Following you ev'rywhere, Yes,
I'll be forever yours because I'm
Crazily, wildly and madly in love with you.
(Madly and wildly forever yours.)

Danny Colours increase in their brightness,
Hours creep so boldly away,
Night turns so swiftly into morning,
Even the dark seems brighter than day.

Sam I often stand still and wonder
Why life should turn out this way.
Don't ever leave this girl behind you,
I couldn't exist if you went away.

(Chorus)

Biff We see how two star-crossed lovers
Drift slowly to harmony.
Cupid has loosed his final arrow,
His spell has ensnared and joined them as one.

Jo We see how love forms a bond and
There's nothing greater than this.
Our friendship binds us all together.
Life is a tranquil Elysian bliss.

(Chorus)

Song 9 Join In the Party

Come on join in the dancing and
Set the whole world ablaze with your feet.
Come join our celebration now
Dance in the aisles and dance in the street.
Beechwood, Beechwood is back on the map
And we're the state champions.

Come on, clear the arena.
Get down, polish the floor and
Join the party, you're all invited to
Taste our success and drink in the atmosphere.
Help us dance the whole night away.
Join the party, you're all invited to
Taste our success and drink in the atmosphere.

Motion, oscillation,
Actuate your kinetic energy, G, G.
Axial generation,
Locomotion, test your mobility, T, T.

Come on, clear the arena,
Get down, polish the floor and
Join the party, you're all invited to
Taste our success and drink in the atmosphere.
Help us dance the whole night away.
Join the party, you're all invited to
Taste our success and drink in the atmosphere.
